Give the Gift of Memories
The Story of Aura Frames

Founded by two early Twitter scientists, Aura is a software company focused on creating products that deliver happiness daily. Technology and innovation are at the core of every decision we make.

We’re on a mission to create a new kind of social network, and we’ve started with a digital frame which gets memories off your phone and into your life.

Aura connects people around the world through a brilliant photo sharing experience. Snap, share and display pictures through our easy-to-use app and beautifully designed WiFi frame. Aura is a high-end, handcrafted product with a superior quality display and unrivaled smart features.

Aura launched online in 2016 to immediate recognition as one of Oprah’s Favorite Things. The frames are now also sold in retail stores across the U.S.
